

## Residence Hall Move-In for Fall 2020

Due to COVID-19, there are several changes to this year's move-in process for residential students. Please read the following carefully.

Each team, PLC students and our Non-Athletes & Non-PLC students have been assigned a specific day and time for moving into the residence halls.

### When you arrive on your scheduled date and time you will go to your assigned residence hall.

- For move-in day, each resident will be allowed one helper.
- Both the student and helper will be required to complete a brief health screening and temperature checks upon arrival.
- Masks are required to be worn.
- You will have one hour to get your belongings unloaded and into your rooms after you check into your building.
- After the hour, you will need to say your goodbyes to your helper, and he/she must leave campus

(Please be patient and understanding with us during this time. There could be changes for our move-in procedures as things evolve with COVID-19.)

### Please see the scheduled day and check in times below:
