

Assistive Device Loaner Program

Webcams

Help when used with other applications to enhance accessibility, communication, and independence.

Reader Scanner Pens

Read scanned text aloud to students.

Colored Overlays

Help to reduce visual stress, improving reader's ability to focus on words, reduce tiredness & improve their reading speed.

Digital Voice Recorders

Allow a student to record lectures, re-listen to lectures, and update notes as needed.

Talking Calculators

Make it easier to check assignments, read numbers and perform calculations.
