Spring 2019

Assessment of Student Learning Newsletter

What's New?

The Assessment Committee has designed a e-mail newsletter to help better disseminate important information to faculty related to assessment here at Seminole State College. This new newsletter platform will be utilized every semester to share crucial information that will keep you updated on assessment activities and committee findings and changes. We sincerely hope that you enjoy this new fresh look.

We have added assessment of co-curricular courses. A co-curricular course at Seminole State College is a course that includes structured activities or learning experiences that take place outside of the classroom and complement what students are learning in the course. The experiences are connected to or mirror the academic curriculum. This definition excludes activity and sport participation courses, and courses with occasional class field trips or activities that do not constitute a substantial portion of the course.

Pre-post assessments tools listed in the Assessment of Student Learning Procedure are approved for the assessment of co-curricular activities.

Courses at SSC that meet this definition are Presidential Leadership and Global Studies courses.

Summer Course Evaluations

Just a Reminder:

We assess all courses in the fall semester. In the spring semester, we only assess courses which were not offered in the fall. In the summer semester, we only assess courses offered which have not been assessed in the fall or spring.

Survey Results

Visit the SSC Assessment webpage for results to the surveys we give.

New Section for Assessment on MySSCOK

Did you know....

...there is an Assessment Webpage? Well, not very many people do. So, we have moved the information essential for course-embedded assessment and instructors to MySSCOK. It is listed on the left in the same area as faculty but near the bottom of the list. With the end of the semester looming, it's time to begin thinking about our course embedded assessment, the graduate exit survey, and reflecting on our work with students this semester. Don't forget, assessments are only useful if we use the results to inform our actions to support student success!

Looking Forward:

Fall 2019 – Course Embedded Assessments, ETS Proficiency Profile, Entering Student Engagement Survey, Degree Program Assessments, Degree Program Evaluations. Degree Program Reviews for Business, MLT, Agriculture, PTA, and Social Sciences.

Assessment Committee Members: Dr. Larry Guerrero, Angela Church, Dr. Linda Goeller, Jessica Isaacs, Tammy Kasterke, Sheila Morris, Melanie Rinehart, Samuel Rivera, Jarrod Tollett, Valerie Watts
