Other Data Indicating Quality Relevant to Degree Program Major Field

Student Feedback on Instruction: The average response scores from the Student Feedback on Instruction for the Math/Science/Engineering Division ranged from 4.25 to 4.65 for the rated scale questions. Therefore, all of the averaged responses fell between “usually applies” and “almost always applies” with those responses describing desired attributes or behaviors. The average response score for all the rated scale questions was 4.47. The average response score for rated scale questions pertaining only to online courses was 4.33.

Graduate Exit Survey: No relevant current data available.

Collegiate Assessment of Academic Proficiency (CAAP) Test: Over the past five years, the Science portion of the CAAP test was only 0.1 point below the national mean. However, the current year score was 1.4 points below the national mean.

Community College Survey of Student Engagement: Sixty-two percent of SSC students responded often or very often to the student-faculty interaction of discussing grades or assignments with an instructor as compared to 50.1% for students in the cohort schools. Instructors in the MSE Division encourage student-faculty interaction and frequently discuss grades with students.

Faces of the Future Survey: No relevant current data available.

Other Quality Indicators: No relevant current data available.
