Total (2 year Program)

\$17,052.60

*Tuition/Fees and Book costs are subject to change. Check with Business Office for current cost. These cost estimates are for the seventy-credit hour nursing curriculum. If the student has already completed non-nursing courses, e.g. American History, Government, Psychology, etc., cost for tuition and books will be less. To determine approximate costs per year, these figures may be divided by two or three depending on number of years attending.

** CPR is offered to SSC Nursing student free of charge on various dates throughout the year. Classes are a first come, first serve basis.

***Travel expenses would vary for the student depending upon distance traveled to SSC and the site of the assigned clinical laboratory requirements. Travel is the responsibility of the individual student.

****NCLEX review courses are optional and do vary in cost. Students may wish to complete at least one additional prep course following graduation to further ensure successful passing of the NCLEX.
