

SEMINOLE STATE COLLEGE  
NURSING PROGRAM  
Philosophy and Mission

**PHILOSOPHY**

Holistic Nursing  
C.O.R.E Philosophy

Holistic nursing integrates mind, body and spirit and is essential for maintenance of health throughout the lifespan. Our CORE values are compassion, opportunity, respect and excellence.

COMPASSION encompasses care and advocacy throughout the lifespan. Virginia Henderson's Caring Theory is the foundation that guides our philosophy.

OPPORTUNITY is provided for learning, critical thinking and reasoning. We promote life-long learning for ourselves and our students.

RESPECT is shown through appreciation of the unique attributes of each individual, family, colleague and self. We demonstrate integrity in every action.

EXCELLENCE requires the use of evidence based practice in the provision of care. We believe in the promotion of the nursing profession, health of self, others and society.

**MISSION**

Seminole State Colleges' Nursing Program prepares nursing students for professional success, personal development and lifelong learning.
